

Vault Doors | UL & GSA Approved Solutions

CustomVault offers a complete line of UL listed and GSA labeled vault doors. As part of project design criteria, we custom-configure vault doors to specific regulatory, site and user requirements. Vault door clear openings, finish, locking mechanisms and emergency features are all considered when recommending a door for a project.

Features

UL Listed Vault Doors

CustomVault offers a variety of options to accommodate any regulatory requirement, access condition, use or finish requirement.

- ▶ **All UL Ratings Classes.** UL doors are available with Class M, 1, 2, and 3 ratings.
- ▶ **Any Size, Anywhere.** We offer a variety of application-driven sizing options:
- ▶ **Low-Profile Doors.** Designed to fit in a standard freight elevator for delivery to high-rise building installations.
- ▶ **Standard Size Doors.** 36" x 78" or 52" x 78" clear opening.
- ▶ **Custom Size Doors.** For conveyor and other special applications, we design doors based on user requirements in any configuration.
- ▶ **Extra-Wide, Single-Leaf Doors.** For cart and pallet jack access without the expense of a double door.
- ▶ **Finished to Your Specifications.** Stainless steel finish standard; downgraded finishes are also available for cost-effective warehouse applications. Daygates are available in acrylic, bar-style brushed aluminum and expanded metal.

GSA Labeled Vault Doors

CustomVault offers a complete line of GSA approved single or double-leaf Class 5 security vault doors, produced to the exact requirements of Federal Specification AA-D-600D. All active leaves have an inside emergency escape device, are pre-hung in the frame and are designed for easy clamp-on installation. GSA labeled doors are available with Class 5 and AR5 ratings in a variety of standard and custom configurations.

Vault Door Preventative Maintenance & Repair

CustomVault also offers VaultPM™, an all-inclusive preventative maintenance program, and OnDemand™ vault door repair services for existing installations.

- ▶ GSA or UL Ratings
- ▶ Custom and standard sizes
- ▶ Full range of finish options
- ▶ Emergency vault ventilators
- ▶ Integrated circuitry for alarm contacts and phone access
- ▶ Three movement, 144 hour timelocks
