

## CannSecure Solutions from CustomVault We're Not Just Blowing Smoke

When it comes to controlled substance security, CustomVault is the industry expert. We have over 30 years of experience and leadership in pharmaceuticals, and have been offering solutions for the cannabis industry since 2009. We know what we are doing. Our security equipment goes far beyond vaults and includes:

### **AIPHONE®** INTERCOMS AND EMERGENCY STATIONS

**AIPHONE** systems can help your growing facility or dispensary optimize site security, communication and visitor management. And with scalable alternatives, **AIPHONE** is certain to meet the specific needs of your installation.

#### JP SERIES

The JP series provides an intercom with a 7" touchscreen. This facilitates easy visitor recognition and ease of communication with a hands-free option. Wiring is simple, and integrated with video surveillance systems. The JP series accommodates up to 4 doors and 8 interior stations as a complement to the master station.

## IX SERIES

The IX series builds on the success of the JP series, with a system that is more scalable and more mobile to meet the needs of larger cannabis operations. The IX is built specifically to accommodate your facility:

- We start with a master station, a sub-master station, door stations (up to 500) and full integration. Need more? System size can be expanded infinitely by adding more master stations.

- The IX is not only integrated with CCTV, but also can provide 24/7 streaming to a video management system.
- A Mobile App for cell phones and tablets allows for visitor identification, door release and more. This enables employees to disengage from the master station and work elsewhere in the facility without risk to security or customer responsiveness.
- Priority calls can be queued so emergencies are responded to before all else.
